

SPEAKEASY CANNABIS CLUB LTD.

Condensed Interim Consolidated Financial Statements

For the nine months ended April 30, 2021 and 2020

(Unaudited)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The condensed interim consolidated financial statements of SpeakEasy Cannabis Club Ltd. (the "Company") are the responsibility of the Company's management. The condensed interim consolidated financial statements are prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and reflect management's best estimates and judgments based on information currently available.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities. The Audit Committee reviews the results of the annual audit and reviews the condensed interim consolidated financial statements prior to their submission to the Board of Directors for approval.

The condensed interim consolidated financial statements as at April 30, 2021, and for the periods ended April 30, 2020, have not been audited or reviewed by the Company's independent auditors.

SPEAKEASY CANNABIS CLUB LTD.

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended April 30, 2021 and 2020

(Expressed in Canadian Dollars - Unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

Speakeasy Cannabis Club Ltd. (the “Company” or “Speakeasy”) is a publicly traded company listed on the Canadian Securities Exchange (“CSE”), trading under the symbol EASY. The head office and registered records office of the Company is located at 1520-6 Meyers Creek Road West, Rock Creek, BC, Canada, V0H 1Y0.

The Company received its initial license to cultivate, process and sell cannabis for medical purposes in November 2019 for its indoor cultivation operations that was later amended in April 2020 to allow for the Company’s outdoor cultivation. In October 2020, the Company’s license was further amended to grant the Company the right to process cannabis into various other cannabinoid products. In January 2021, the Company was granted a further amendment to its sales license to allow sales of cannabis flower and products. The Company’s license expires in November 2022. In October 2020, the Company completed its first harvest of its outdoor crop consisting of approximately 60,000 plants (Note 5).

The Company does not engage in any U.S. cannabis-related activities as defined in Canadian Securities Administration Staff Notice 51-352.

2. BASIS OF PRESENTATION

Statement of compliance

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 – Interim Financial Reporting under International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”). These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the most recent annual consolidated financial statements of the Company. These condensed interim consolidated financial statements do not contain all of the information required for full annual financial statements. Accordingly, these unaudited condensed interim consolidated financial statements should be read in conjunction with the Company’s July 31, 2020, annual consolidated financial statements, which were prepared in accordance with IFRS as issued by the IASB.

Going concern assumption

These condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern under International Financial Reporting Standards (“IFRS”). The use of these principles under IFRS assumes that the Company will continue in operation for the foreseeable future and will be able to realize assets and discharge its liabilities in the normal course of operations. At April 30, 2021, the Company has incurred losses totaling \$39,320,729 (July 31, 2020 - \$37,062,817) since inception. The Company’s ability to continue as a going concern is dependent on its ability in the future to achieve profitable operations and in the meantime, obtain the necessary financing to meet its obligations and repay its liabilities when they come due. Realization values may be substantially different from carrying values as shown and these consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. These material uncertainties may cast significant doubt on the Company’s ability to continue as a going concern.

SPEAKEASY CANNABIS CLUB LTD.

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended April 30, 2021 and 2020

(Expressed in Canadian Dollars - Unaudited)

2. BASIS OF PRESENTATION (continued)

Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, 10161233 Canada Ltd. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Inter-company balances and transactions, and any unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Biological assets and inventory

The Company's biological assets consist of cannabis plants from indoor and outdoor cultivation. The Company capitalizes all the direct and indirect costs as incurred that relate to the biological transformation of the biological assets between the point of initial recognition and the point of harvest including labour related costs, grow consumables, materials, utilities, facilities costs, quality and testing costs, and production related depreciation. The Company then measures the biological assets at fair value less cost to sell up to the point of harvest; this becomes the basis for the initial deemed cost of finished goods inventories after harvest. Costs to sell include post-harvest production, shipping and fulfillment costs.

The net unrealized gains or losses arising from changes in fair value less cost to sell during the period are separately identified and included in the profit or loss on the line "unrealized gain on change in fair value of biological assets".

b) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue and costs to sell can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and other sales taxes.

The Company follows a five-step model to determine the amount and timing of revenue to be recognized:

- i) Identifying the contract with a customer;
- ii) Identifying the performance obligations within the contract;
- iii) Determining the transaction price;
- iv) Allocating the transaction price to the performance obligations;
- v) Recognizing revenue when/as performance obligation(s) are satisfied.

Revenue from the sale of cannabis to medical customers is recognized when the Company transfers control of the good to the customer. In some cases, judgment is required in determining whether the customer is a business or the end consumer. This evaluation is made on the basis of whether the business obtains control of the product before transferring to the end consumer. Control of the product transfers at a point in time either upon shipment to or receipt by the customer, depending on the contractual terms.

With effect from October 17, 2018, the Canada Revenue Agency ("CRA") began levying an excise tax on the sale of medical and consumer cannabis products. The Company becomes liable for these excise duties when its cannabis products are delivered to the customer. The excise taxes payable is the higher of (i) a flat-rate duty which is imposed when the cannabis product is packaged, and (ii) an advalorem duty that is imposed when the cannabis product is delivered to the customer.

SPEAKEASY CANNABIS CLUB LTD.

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended April 30, 2021 and 2020

(Expressed in Canadian Dollars - Unaudited)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Revenue recognition (continued)

Where the excise tax has been billed to its customers, the Company has reflected the excise tax as part of revenue in accordance with IFRS 15. Net revenue from the sale of goods – as presented on the consolidated statement of profit and loss – represents revenue from the sale of goods less applicable excise taxes. Given that the excise tax payable / paid to the CRA cannot be reclaimed and is not always billed to customers, the Company recognizes that the excise tax is an operating cost that impacts gross profit (loss) to the extent that it is not recovered from its customers.

c) Significant Accounting Judgments and Estimates

The Company's management makes judgments in its process of applying the Company's accounting policies to the preparation of its unaudited condensed consolidated interim financial statements. In addition, the preparation of financial data requires that the Company's management make assumptions and estimates of the impacts on the carrying amounts of the Company's assets and liabilities at the end of the reporting period from uncertain future events and on the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting impacts on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of the Company's unaudited condensed consolidated interim financial statements for the nine months ended April 30, 2021, are consistent with those applied and disclosed in Note 3 to the Company's audited consolidated financial statements for the year ended July 31, 2020.

4. PREPAID EXPENSES AND DEPOSITS

	April 30, 2021	July 31, 2020
Branding and marketing	\$ 1,312,500	\$ -
Consulting	48,610	-
Insurance	44,481	-
Security deposits	4,400	4,400
Others	5,000	15,376
	<hr/>	<hr/>
	\$ 1,414,991	\$ 19,776

During the period ended April 30, 2021, the Company entered into an agreement for marketing and branding services for a 12-month period in consideration of \$1,750,000, which was settled with 3,723,404 common shares valued at \$1,861,702 in lieu of cash (Note 13).

SPEAKEASY CANNABIS CLUB LTD.

Notes to Condensed Interim Consolidated Financial Statements
For the nine months ended April 30, 2021 and 2020
(Expressed in Canadian Dollars - Unaudited)

5. INVENTORY

Inventory is comprised of the following items:

	April 30, 2021	July 31, 2020
Finished goods	\$ -	\$ -
Work-in-process – indoor	5,170,701	-
Work-in-process – extracts	13,058	-
Work-in-process – outdoor	6,168,928	-
Total inventory	\$ 11,352,687	\$ -

The fair value change in biological assets included in inventory sold and other inventory charges for the period ended April 30, 2021 is \$136,604 (July 31, 2020 - \$Nil). Included in other inventory charges are net realizable value adjustment and net write-offs of biological assets.

6. BIOLOGICAL ASSETS

The Company's biological assets consists of cannabis plants from the Company's indoor and outdoor operations. The continuity of biological assets for the period ended April 30, 2021 and year ended July 31, 2020 is as follows:

	Period ended April 30, 2021	Year ended July 31, 2020
Biological Assets		
Balance, beginning of period	\$ 6,908,568	\$ -
Production costs capitalized	7,719,103	3,778,257
Unrealized gain on changes in fair value of biological assets	2,670,528	3,130,311
Transfer to inventory upon harvest	(16,674,582)	-
Balance, end of period	\$ 623,617	\$ 6,908,568

As at April 30, 2021, the ending balance of biological assets was comprised of a cash component relating to production costs capitalized of \$7,719,103 (July 31, 2020 - \$3,778,257) and a fair value component related to changes in fair value less costs to sell due to biological transformation of \$2,670,528 (July 31, 2020 - \$3,130,311). Biological assets as at April 30, 2021 included capitalized amortization of \$117,780 (2019 - \$26,617). The fair value of biological assets is determined using a valuation model to estimate expected harvest yield per plant applied to the estimated price per gram less post-harvest costs. Only when there is a material change from the expected fair value used for cannabis does the Company make any adjustment to the fair value used.

The Company's estimates, by their nature, are subject to changes that could result from volatility of market prices, unanticipated regulatory changes, harvest yields, loss of crops, changes in estimates and other uncontrollable factors that could significantly affect the future fair value of biological assets. The capitalization of costs related to biological assets (which are accounted for under IAS 41 – Agriculture) has been performed in a manner consistent with IAS 2 – Inventories.

SPEAKEASY CANNABIS CLUB LTD.

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended April 30, 2021 and 2020

(Expressed in Canadian Dollars - Unaudited)

6. BIOLOGICAL ASSETS (CONTINUED)

In determining the fair value of indoor and outdoor biological assets, management has made the following estimates in their valuation model:

- A sales price of \$1.00 per gram for outdoor and \$3.50 per gram for indoor;
- Harvest yield of 252 grams per plant for outdoor and 452 grams per plant for indoor;
- Post-harvest costs of \$0.01 per gram for both outdoor and indoor; and
- A weighted-average growing cycle length of 120 days for indoor and 145 days for outdoor.

The sales price used in the valuation of biological assets is based on the weighted-average selling price of all cannabis products and can vary based on different strains being grown as well as the proportion of sales derived from wholesale compared to other sources. The Company negotiated a price for its indoor cultivated product providing the basis of the sales price for indoor cultivation. The Company has yet to complete any sales of its outdoor cultivation and accordingly has estimated the outdoor price based on available market information regarding wholesale prices of cannabis biomass. Harvest yields per cannabis plant represent the grams of dry cannabis and other biomass harvested, based on actual yields by plant strain as the biological assets were all harvested as at the date of this report. Yields are also subject to a variety of factors, such as strains being grown, length of growing cycle, and space allocated for growing. The Company's yields are for cannabis biomass. Cannabis biomass typically consists of flower, trim, and other by product typically used for additional processing and extraction.

Post-harvest costs represent the estimated cost to process a gram of harvested cannabis, consisting of the direct and indirect cost of materials, labour, utilities and amortization of the equipment. A processed gram is a gram of cannabis that has completed drying, curing, testing, and packaging. The post-harvest costs reflect an average of the costs expected to be incurred to prepare the product into its saleable state based on the expected sales channels for the product. Management reviews all significant inputs based on historical information obtained as well as planned production schedules. All biological assets are classified as current assets on the consolidated statement of financial position and are considered Level 3 fair value estimates. The valuation of biological assets is based on an income approach in which the fair value at the point of harvesting is estimated based on selling prices less the costs to sell. For in-process biological assets, the fair value at point of harvest is adjusted based on the stage of growth at period end. Stage of growth is determined by reference to the plant's life relative to the stages within the life cycle.

Management has quantified the sensitivity of the inputs and determined the following:

- Selling price per gram – an increase / decrease in the weighted-average selling price per gram by 10% would result in the fair value of the biological assets increasing / decreasing by \$62,500;
- Harvest yield per plant – an increase / decrease in the harvest yield per plant of 10% would result in the biological asset fair value increasing / decreasing by \$37,700;
- Post-harvest costs – an increase / decrease in the post-harvest costs per gram by 10% would result in the biological asset fair value increasing / decreasing by \$200; and
- Growth length – an increase / decrease in the growing cycle length by 10% would result in the biological fair value increasing / decreasing by \$68,000.

SPEAKEASY CANNABIS CLUB LTD.

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended April 30, 2021 and 2020

(Expressed in Canadian Dollars - Unaudited)

7. INTANGIBLE ASSETS

On July 30, 2020, the Company entered into, and amended, a license agreement with Phenome One Corp. ("Phenome") to acquire the rights to propagate, cultivate, harvest, process and breed Phenome cultivars. On July 30, 2020, in consideration of the license agreement, the Company issued 5,000,000 common shares valued at \$2,200,000.

On July 31, 2020, the Company assessed the intangible assets for indicators of impairment and noted no significant indicators existed as at, or during period ended April 30, 2020. No amortization has been recorded as at April 30, 2021 as the asset was recently acquired.

8. RIGHT OF USE ASSETS

On adoption of IFRS 16, the Company recognized lease liabilities in relation to leases which had previously been classified as operating leases under the principles of IAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments excluding renewal options as they are not expected to be exercised, discounted using the Company's incremental borrowing rate as of August 1, 2019. The weighted average incremental borrowing rate applied to the lease liabilities on August 1, 2019 was 10%.

The following is a reconciliation of operating lease commitments to lease obligation in accordance with IFRS 16:

Total operating lease commitments disclosed at July 31, 2019	\$	197,262
Less: short-term leases		-
Current operating lease liabilities before discounting		197,262
Discounted using incremental borrowing rate		(22,669)
Total current lease liabilities recognized under IFRS 16 at August 1, 2019	\$	174,593
Addition		69,600
Discounted using incremental borrowing rate		(6,754)
Total lease liabilities recognized under IFRS 16 at July 31, 2020	\$	237,439

The recognized right-of-use asset relates to the lease on the Canadian facilities. The change in accounting policy affected the following items in the statement of financial position on August 1, 2019:

- Right-of-use assets – increased by \$174,593
- Lease liabilities – increased by \$174,593

In applying IFRS 16 for the first time, the Company used the following practical expedients permitted by the standard:

- reliance on previous assessments on whether leases are onerous
- elected to account for the payments for short-term leases and leases of low-value assets as an expense in the statement of loss on a straight-line basis over the lease term
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

(Expressed in Canadian Dollars - Unaudited)

8. RIGHT OF USE ASSETS (continued)

For the period ending April 30, 2021, the depreciation of the right of use assets were \$23,877. The right of use assets are depreciated on a straight-line basis over the term of the lease.

Right of use asset, August 1, 2019	\$	174,593
Additions		62,846
Depreciation of right of use assets		(69,049)
Right of use asset, July 31, 2020		168,390
Disposition		(107,008)
Depreciation of right of use assets		(23,877)
Right of use asset, April 30, 2021	\$	37,505

During the period ended April 30, 2020, the Company terminated its lease agreement for the office space – #608 – 55 East Cordova Street, Vancouver, BC, which resulted in a write-off of right of use assets of \$5,513.

As of April 30, 2021, the Company had two agreements that are leases as defined under IFRS 16. In analyzing the identified agreements, the Company applied the lessee accounting model pursuant to IFRS 16, and considered all of the facts and circumstances surrounding the inception of the contract. Lease liabilities were calculated with a discount rate of 10%.

Lease Type	Date of Maturity
Office space – Unit B – 430 Lyall Street, Midway, BC	March 31, 2022
Office space – Unit D – 430 Lyall Street, Midway, BC	April 30, 2022

For the period ending April 30, 2021, finance charges on the lease liabilities were \$4,230, and are included in interest and bank charges in operating expenses.

Lease liabilities, August 1, 2019	\$	174,593
Additions		62,846
Payments		(91,776)
Finance costs		16,179
Lease liabilities, July 31, 2020		161,842
Reclassify to accounts payable and accrued liabilities		(10,150)
Payments		(22,753)
Finance costs		4,230
Disposition		(101,495)
Lease liabilities, April 30, 2021	\$	31,674

		April 30, 2021

10. ADVANCES PAYABLE

During the period ended April 30, 2021, the Company received the following loans:

- i) \$40,000 unsecured non-interest bearing loan with no set repayment term. The loan remained outstanding at April 30, 2021.
- ii) \$197,200 unsecured non-interest bearing loan with no set repayment term. The Company repaid \$165,000 of the loan during period ended April 30, 2021. As of April 30, 2021, a total of \$32,200 was still owing.
- iii) \$14,516 unsecured non-interest bearing loan from a related party with no set repayment term. The loan remained outstanding at April 30, 2021.

During the year ended July 31, 2020, the Company received the following loans:

- i) \$143,500 unsecured non-interest bearing loan from a related party with no set repayment term. The loan was fully settled in consideration of 373,698 common shares valued at \$186,849 and resulted in a loss of \$43,350 (Note 16).
- ii) \$125,000 unsecured non-interest bearing loan with no set repayment term. The loan was fully settled in consideration of 325,521 common shares valued at \$162,760 and resulted in a loss of \$37,760 (Note 13).
- iii) \$250,000 unsecured non-interest bearing loan from a related party with no set repayment term. The Company repaid this loan in full during period ended April 30, 2021.
- iv) \$150,000 unsecured non-interest bearing loan with no set repayment term. The Company repaid this loan in full during period ended April 30, 2021.
- v) \$10,000 unsecured non-interest bearing loan from a related party with no set repayment term. The loan remained outstanding at April 30, 2021.

11. CONVERTIBLE LOAN

During the year ended July 31, 2020, the Company entered into a senior secured convertible loan agreement in the principal amount of \$2,000,000. The loan bears interest at a rate of 55% per annum and will be repayable as to \$1,810,000 (principal of \$710,000) on or before May 5, 2021, and \$1,999,500 (principal of \$1,290,000) on or before May 5, 2022.

The loan, including accrued interest, is convertible into common shares of the Company at a price of \$1.00 per share, subject to adjustment on the terms and condition set forth in the agreement.

The loan is secured by the Company's property in Rock Creek and a first-ranking general security agreement over all of the present and after-acquired personal property of the Company and the Guarantor.

In connection with the convertible loan, the Company has agreed to pay a finder's fee of \$190,000 on or before May 21, 2021 as a promissory note. The promissory note is unsecured and non-interest bearing.

(Expressed in Canadian Dollars - Unaudited)

11. CONVERTIBLE LOAN (CONTINUED)

The discount on the convertible loan is amortized using the effective interest method over the two year term of the convertible loan. The Company accretes the carrying value of the convertible loan each month by recognizing an accretion expense in profit or loss and a credit to convertible loan. During the period ended April 30, 2021, the Company recorded \$72,000 of accretion expense.

Balance, August 1, 2019	\$	-

Total convertible loan, April 30, 2021	\$	3,006,000

On April 9, 2021, the Company issued convertible debentures in the principal amount of \$3,000,000. Each debenture bears interest at a rate of 6% per annum and matures two years from the date of issuance. The debentures are convertible into common shares at a price equal to lower of (i) \$0.52; and the closing price of the common shares on the day before the closing date. The Company paid legal fees of \$25,000 cash and issuance of 288,462 common shares in settlement of finder's fee of \$150,000 (note 13). During the period ended April 30, 2021, the Company recorded accretion of \$36,620 for the debentures.

In connection with the loan, the Company also agreed to grant to the administrative agent such number of common share purchase warrants as is equal to the principal amount of the loan divided by the conversion price. Each Warrant entitles the holder to purchase a Common Share at a purchase price of \$0.70 per common share, subject to adjustment, for a period of three years following the date of issuance; and

As security for the loan, the Company will cause the grant to the lender of a first mortgage over the guarantor's property in Rock Creek, British Columbia and a first-ranking general security agreement over all of the present and after-acquired personal property of the Company and the Guarantor.

14. CAPITAL MANAGEMENT

The Company's policy is to maintain a strong capital base as to maintain investor and creditor confidence, safeguard the Company's ability to support the development of its projects and to sustain future development of the business. The capital structure of the Company consists of shareholders' equity. There are no restrictions on the Company's capital. There were no changes in the Company's approach to capital management during the period.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Company's management team approves and monitors the risk management processes, with guidance from the Audit Committee under policies approved by the Board of Directors. The type of risk exposure and the way in which such exposure is managed is provided as follows:

a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. The majority of cash is deposited in bank accounts held with trust accounts and a credit union in Canada. The Company does not believe its receivables are subject to significant credit risk as they consist mainly of sales taxes recoverable from a Canadian government agency.

(Expressed in Canadian Dollars - Unaudited)

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with financial liabilities. The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support normal operation requirements. The Company coordinates this planning and budgeting process with its financing activities through the capital management process described in Note 17, in normal circumstances.

Historically, the Company's source of funding has been the issuance of debt and equity securities for cash. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

The Company's financial liabilities are comprised of its accounts payable and accrued liabilities, convertible loan, due to related parties, and advances payable.

c) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

i) Interest rate risk

As April 30, 2021, the Company did not hold any material interest bearing investments or liabilities and has no significant interest rate risk.

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in foreign exchange rates. At April 30, 2021, the Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company has limited foreign currency exposure.

iii) Price risk

Price risk is the risk of variability in fair value due to movements in equity or market prices. The Company is subject to risk of prices to its products due to competitive or regulatory pressures. Please refer to Note 6 for sensitivity tests on Biological Assets.

16. SEGMENTED INFORMATION

The Company operates in one industry segment, the cultivation and sale of cannabis biomass. As at April 30, 2021, the Company's long term assets were located in Canada.

(Expressed in Canadian Dollars - Unaudited)

17. COMMITMENTS AND CONTINGENCIES

- i) A legal claim was brought against the Company during the year by a consultant. Management considers this claim to be unjustified and the probability that it will require settlement at the Company's expense to be remote. This evaluation is consistent with external independent legal advice.
- ii) There is a petition proceeding in which the petitioners seek leave to commence claims under s. 140.3 of the Securities Act, R.S.B.C. 1996, c. 418 for alleged misrepresentations made by the Company and 10 other issuers. The petitioners wish to have those claims heard as part of the class action. The Petition to the Court was filed on February 24, 2020. The Company filed a Response to Petition on February 27, 2020.
- iii) On July 11, 2019, a Notice of Civil Claim was filed against the Company along with 10 other issuers. The notice of claim alleges that the Company and the other defendants made certain misrepresentations and conspired with each other and certain consultants to injure the plaintiffs. Most defendants, including the Company, have yet to file a Response to Civil Claim. The plaintiffs have not yet delivered their materials for the certification application. Without these materials it is difficult for the Company to assess the likelihood of the case being certified or the likelihood of the plaintiffs ultimately succeeding on their claims. The Company intends to vigorously oppose the certification application if and when it is brought against the Company.

The Company may become party to litigation, from time to time, in the ordinary course of business which could adversely affect its business. Should any litigation in which the Company becomes involved be determined against the Company such a decision could adversely affect the Company's ability to continue operating and the market price for the Common Shares and could use significant resources. Even if the Company is involved in litigation and wins, litigation can redirect significant Company resources. Litigation may also create a negative perception of the Company's name.

18. SUPPLEMENTAL DISCLOSURE OF CASH FLOW INFORMATION

19. SUBSEQUENT EVENTS

Subsequent to April 30, 2021, the Company:

- i) issued 4,368 common shares pursuant to exercise of warrants for proceeds of \$2,621, which was received during the period ended April 30, 2021.

- ii) On June 24, 2021, the Company entered into a share purchase agreement dated with Karolos Research Inc. and each of the security holders in connection with the proposed acquisition of all of the issued and outstanding securities of Karolos. Pursuant to the Definitive Agreement, SpeakEasy would acquire all of the Karolos Securities in exchange for the issuance of 11,500,000 common shares in the capital of SpeakEasy and 3,000,000 common share purchase warrants. Each Consideration Warrant entitles the holder to acquire an additional common share of the Company at an exercise price of \$0.59 per share for a period of 24 months following the date of issuance. In accordance with the terms of the Definitive Agreement, 2,000,000 of the Consideration Shares will be subject to a contractual hold period of 4 months from the date of issuance and an additional 2,000,000 Consideration Shares will be subject to a hold period of 1 year from the date of issuance, with 25% of such shares being released to the holder every 3 months during such year.

If completed as proposed, the Acquisition would include an existing cash balance of approximately \$1,000,000, intellectual property associated with a digital psychedelic database known as "XCYBIN" and a natural health company, known as Genetico Research, that expects to specialize in product development in the cannabis industry, with a main focus on bringing CBG/CBD products to market. These CBG/CBD products are not expected to contain any psychoactive ingredient, making them more accessible to potential clients who would like to receive the medicinal benefits of cannabis without the psychoactive ingredient of full spectrum cannabis products.

The completion of the Acquisition is subject to a number of conditions, including, without limitation, the approval of the Canadian Securities Exchange and the approval of the Company's minority shareholders. The Company anticipates calling a special meeting of shareholders in the coming weeks with a view to seeking minority shareholder approval for the Acquisition.
